

SINCE 1842

Tech Ministry

The tech ministry comprises of three big roles at Little T.

The sound person, lyric projection, live-stream operator. All three roles have specific jobs that all come together to serve the same purpose: Provide clear communication of the gospel message to parishioners and the greater community at Little T.

The tech team comes together on Sundays to facilitate the liturgy, providing sound reinforcement for musical worship inside the church and over live-stream. The lyric projectionist provides the visual reinforcement of the liturgy, specifically: song lyrics, liturgy responses, scripture readings and announcements that need to be projected onto the screen.

The live-stream operator responsible for working the cameras and using various angles to allow the wider community who are gathered online a live-stream with an 'in person' feel.

Time commitment:

Sound: 7am-12:30pm

Projection: 8:30am - 10:15 and/or 10:30-12:30

Live-stream Operator: 10am-12:30pm

Evening Sound: 5:30-8:00 pm,

Projection: 6:00-8:00 pm

Training is provided! if you have more questions or would like to serve in this ministry, please contact **Collins at tech@littletrinity.org**
